THE DAILY NEWS.

There are certain things—as a soldier, a ghost, The income tax. gout, an umbrolla for three-That I hate; but the thing that I hate the most Is a thing they call the sea.

If you like coffee with sand for dregs, A decided hint of salt in your tea, And a fishy taste in the very eggs,

By all means choose the ser And if, with these dainties to drink and ent, You prefer not a vestige of grass or tree, And a chronic state of wet in your feet,

THE CHARLESTON MARKET. FOR THE WEEK ENDING THURSDAY, APRIL 15, 1869. COTTON.-Although there has been for some time past many elements at work calculated to lower the price of the staple, among which are the unprofitable result of manufacturing in England, the conequent lessening of the consumption, and the depressing effect caused by the general belief prevailing outside of the cotton region that the article is at soo h'gh a figure, inducing cautious buying and a stinted use of the fibre, notwithstanding the depresing effect arising from the operation of these causes, the staple has continued to maintain good prices, and outside of the effect of possible civil and finan cial convulsions its future looks sound and healthy. Prices during the period under review have been steadily maintained, and even showed a somewhat hardening tendency, the English market opening at 12%d, improving to 12%d; at New York, which commenced at 28 1/4, the staple stiffened to 28 1/4 29c, and at this point middling upland, which began at 27%, hardened to 27%@28c % lb.

SEA ISLAND COTTON .- The arrivals of this quality of the staple has been almost nominal, amounting to only 4 bags of sea islands and Floridae for the week, against 8 bags the week before, and 26 bags for the same week last year. The very flat condition of the market for this article, which has prevailed for some time past, has continued during much of the week just closed, and t uyers exhibited but little inclination to enter the market unless at heavy concessions But factors in some cases having shown a better disposition to meet purchasers, some 70 to 80 bales changed hands at somewhat lower rates—common Floridas se ling at 50a65c, and common Carolina sea islands at 650 % lb. Yesterday there was rather a better inquiry, but the market was too meetiled for
